## Welcome

British doc Christian Jarrett [PhD in cognitive neuroscience] wants a moment of our time. As a society, he notes, we place a huge amount of emphasis on being there for each other during times of need. However research is consistent in its findings that relationships are built and satisfaction is gained by how we react to each other's good news. In other words, celebrating good things actually magnifies the benefits, making them even better. So, this week, let's celebrate good and enjoy the great results. Welcome to Campion.

## Our Mission

We serve and glorify God through Christ-centered worship, individual spiritual growth, youth involvement, and community interaction.
