Welcome

The FBI want into Tashfeen Malik's phone, and so far Apple is saying no. You sadly remember Malik was one of the shooters on December 2 in San Bernardino, and the FBI can't get into his phone. They are afraid if they try, the contents will be erased. Apple says that creating a "back door" into the phone puts everyone's phone secrets at risk. Most applaud this position. We like our secrets. It is then all the more important that we learn of the One who knows our secrets and confront the question of what must be done with sin. Welcome to Campion.

Our Mission

We serve and glorify God through Christ-centered worship, individual spiritual growth, youth involvement, and community interaction.
